Examiner's Amendment

1. An Examiner's Amendment to the record appears below. Should the changes or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.
2. Pursuant to M.P.E.P. §606.01, this title has respectfully been changed to read as follows:

**-- DYNAMIC SELF-CONFIGURATION FOR AD HOC PEER NETWORKING
USING MARK-UP LANGUAGE FORMATED DESCRIPTION MESSAGES --**
3. Authorization for this examiner's amendment was given via email by Stephen A. Wight (Reg. No. 37,759) on December 09, 2004 (see attached) to cancel pending non-elected claims 1-17. See amendment below.

Reason for allowance

4. The following is the Examiner's statement of Reason for Allowance. This statement is not intended to necessarily state all the reasons for allowance or all the details why claims are allowed, nor it specifically or impliedly state that all the reasons for allowance are set forth. The primary or important reason for allowance of the claims is the inclusion of the limitation(s) in all the claims, which is not found in the prior art references.

In this case, the prior art of record teaches the claimed invention substantially as claimed. Specifically, the addressing, announcing and discovery means limitations of claimed (18) invention are taught by the prior art of record, including wherein responsive to a (poll) request received by the computing device on a network for a "description" message defining communication "interaction" via calls "data messages" with the computing device to remotely operate the computing device over the network, taught by Wanderer. Wanderer fails to teach, the description means limitation of claim 18 as amended. Specifically, where the description means (i.e. description document as defined on specs p. 17) are at the computing device (see remarks p. 8, lines 1-13), as amended nor where the description message is peer accessible (i.e. accessible by other computing devices as defined on specs on page 47, lines 8-19) "description"

message "dynamically" defining communication (see remark p. 9, lines 1-15), as set forth independent claims **18** and **25**.

5. Claims **18-35** are allowed because of the combinations of other limitations and the limitation listed above.

6. Double patent analysis has been performed with respect to issued patents having common relationship of inventorship and/or ownership with respect to the above-allowed claims, none are found to warrant a double patenting rejection.

7. Other references considered pertinent to applicant's disclosure were identified as result of subsequent searches, these references are made of record via enclosed PTO-892.

8. Any comments Applicants considers necessary must be submitted no later than the payment of the Issue Fee and to avoid processing delays, should preferable accompany the Issue Fees. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance". In event of any post-allowance papers (e.g. IDS, 312 amendment, petition, etc.), Applicant is exhorted to mail papers to the Production Control branch in Publications or faxed to post-allowance papers correspondence branch at (703) 308-5864 to expedite issuing process or call PUB's Customer Service if any questions at (703) 305-8497.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to B. Prieto whose telephone number is (571) 272-3902. The Examiner can normally be reached on Monday-Friday from 6:30 to 4:00 p.m. If attempts to reach the examiner by telephone are unsuccessful, the Examiner's Supervisor, Jack B. Harvey can be reached on (571) 272-3896. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3800/4700.

10. Information regarding the status of an application may be obtained fro the Patent Application Information Retrieval (PAIR) system, status information for published application may be obtained from either Private or Public PAIR, for unpublished application Private PAIR only (see <http://pair-direct.uspto.gov> or the Electronic Business Center at 866-217-9197 (toll-free)).
